

Comprehensive Chain Solutions

We've got your chain!

Family Keeps You Running!™

Comprehensive Chain. Peerless Support.

When we started PEER Chain in 1969, we set out to do two things better than anyone else. Offer an exhaustive range of chain solutions and deliver an unprecedented level of support to our customers. And to this day, our most compelling success metric, hands-down, is customer satisfaction. Don't misunderstand. We work diligently to cross our T's and dot our I's. But ours is a business model that values relationships. Quite simply, we believe in taking care of our customers. It's what we love doing more than anything else. And it's this passion and commitment that separates us from the competition.

Superior Fabrication & Inventory at the Ready

At PEER, we are passionate about delivering unprecedented quality and dependability, as well as offering our customers readily available inventory that anticipates the unexpected, providing them with shorter lead times, and rapid turn-around. Our premium quality chain is manufactured in some of today's most advanced automated facilities along with uncompromising quality assurance standards and a commitment to research and development enabling PEER Chain to stay ahead of the curve in a dynamic marketplace.

Danny and Glenn Spungen

From Industry to Industry, We've Got the Chain You Need!

From the automotive industry to wood/forestry facilities, PEER offers thousands of specifications and configurations designed to work seamlessly with your equipment. And with an exhaustive range of chain, we can customize chain to your exact specifications.

*That's the **PEER** difference.*

***“When a company’s culture is authentic,
it engages both the employee and the customer.
– Glenn Spungen, President***

Corporate Culture is more than free coffee. It’s an outlook – a way of doing business. Case in point: PEER Chain’s Customer Success Center. Like everything we do, our Call-In Center is built around the following core principles: respect, diligence and resolve. We treat our customers the way we treat each other, and how we, ourselves, would like to be treated. Moreover, our Call-In Center ambassadors don’t live in a silo. Interacting regularly with our sales team, as well as regular visits to PEER’s Assembly and Distribution Center, keep our team fully engaged in the entire conversation. It’s an experience, altogether different, and one you will see and feel with each and every call.

From Roller to Engineering-Class, We've Got Your Chain!

Shown here are some of the different chain options PEER offer, organized by chain type.

For more information, contact your local distributor or one of the our devoted
PEER Customer Service Ambassadors.

Driving Your Operations.

Driving Your Success.

Glenn

Danny

Glenn Spungen, President

"Smart companies recognize the harmony between the employee and the customer. When you take care of one, you take care of the other. At PEER we take care of both with equal measure — because this is how lasting relationships work. And relationships are our passion."

Glenn describes himself as an average guy with no unique talents. Kind of funny coming from someone who spent 27 years in sales and operations for a well-recognized global company. Since 2012, Glenn has been President of PEER Chain. He is a graduate of the Kelley School of Business at the University of Indiana. Glenn believes in transparent leadership and treating others — employees and customers alike — the way he would like to be treated. He also believes in making PEER the definitive chain solution for the customer — both in terms of product availability and customer support. Happily married since 1991, Glenn and his wife have three wonderful children, and in his spare time he enjoys Chicago Blackhawks hockey, travel, cycling, golf, and gardening.

Danny Spungen, Vice President Strategic Marketing

"Creativity in business is a game changer and a differentiator, whether you're selling cars, cheese, or chain!"

Danny Spungen is power transmission! It's in his DNA. Also in his DNA is a passion for teamwork and developing innovative and creative ways to go to market, as well as building mutually beneficial lasting relationships. Danny has been part of the PEER Chain family since working summers during college. He's been fulltime since 1983. Danny is also passionate about philanthropy, World War II history, and an array of collectibles, including sports cards, stamps, Hot Wheels, and coins. When you visit PEER, don't be surprised if you are greeted by one of Danny's dogs or meet one of the 11 Rotary Club foreign exchange students his family has hosted over the years. Danny has a very big vision of "family".

**Chuck Briere, National Sales Manager**

"Family, family, family. What else is there to say?"

What do you say about a guy who has been in the bearing and power transmission business for over 40 years? Yes, besides being a little crazy! But here's the thing. Chuck loves selling chain, and he loves working at PEER. Why? Because chain is a technical product, and he enjoys the science of it. And PEER is like a family — a family with principals, who have principles, personality, and character. Moreover, PEER is dedicated to seeing its customers succeed as well as its industry grow. When Chuck isn't moving chain, he's attending his grandsons' baseball, soccer and hockey games, reading, taking walks with his wife, Linda, who he has been with just as long as he's been in this business. Oh, and here's something else pretty cool about Chuck. Now a retired Colonel, Chuck served his country for 35 years in the Army Reserve, where he learned that people are and always will be our greatest asset.

**Jeremy Fogo, Product Manager**

"Treat others with kindness and respect, the rest will take care of itself."

A consummate people person, Jeremy finds the work he does with his PEER customers incredibly rewarding. Being able to solve challenges for the PEER customer is something that gets Jeremy out of bed each morning, and he loves the culture and network of talented individuals with whom he works. Jeremy joined PEER Chain in 1997 as a Regional Sales Manager. He was then VP of Sales before assuming his current role of Product Manager. When he isn't solving power transmission conundrums, Jeremy is all about his family. He and his wife have two teenagers who together love to travel, especially to Disney World. He also enjoys classic muscle cars and the great outdoors.

**Eric Ma, Manager of Engineering & Quality**

"Delivering nothing less than precision to the PEER customer is off the table."

A more befitting title could not be given to Eric, unless it was to also include something about his strength of character. Engineering and quality is what Eric lives, breathes, and embodies day in and day out. Since coming to PEER in 2010, he has thrived in his role because of his intellect, dedication, and motivation. Eric loves the family-owned business environment and leadership at PEER, and finds it to be the perfect platform for exercising his knowledge and experience of the power transmission industry. Eric holds a B.S. in Material Science, an M.S. in Chemical Engineering, and another M.S. in Computer Science. And if that weren't enough, he also is a Certified Professional for Supply Management (CPSM). When he isn't developing precision chain solutions for our customers, Eric enjoys time with his wife and teenage son, as well as music and sports.
